

Good Afternoon!

As you may know, our school will be one of the first schools in the District offering parents the convenience of paying online for school activities, field trips and sports events. I would like to share two quick movie clips with you. These clips will provide you with a better understanding of the benefits to teachers and parents.

This first movie clip was designed to demonstrate what the online registration and shopping experience will be like for our parents.

This next movie clip outlines the benefits to our staff and offers suggestions on how teachers can assist with this initiative.

I wanted to ensure that all staff were aware of this initiative. We will begin the process of involving and notifying parents soon.

Many Thanks,

Principal
